

The Northampton County Chamber of Commerce is a nonprofit membership organization representing businesses and individuals in North Carolina's northern coastal plain. Our service area includes all of Northampton County.

Embraced by the Roanoke and Meherrin Rivers, Northampton County was established in 1741. Our lush farms, massive forests and quiet rivers offer much to our 22,000 residents and thousands of visitors that visit our area each year. We are home to numerous golf and hunting clubs, fishing tournaments and historic walking tours.

For those new to the area, involved in business activity or thinking of relocating to Northampton County, the Chamber offers detailed area maps, a Relocation Guide, economic indicators and networking opportunities to help your business grow.

Whether you are a resident of northeastern North Carolina, a regular visitor or a potential resident, we are glad you stopped by.
